

Area D

Area C

Area B

Area A

10

Extend native planting and dune restoration to road edge (dark green)

1

Build a new wide central path stretching from the top of Maclean Street to the Boat Club area.

7

Remodel and increase the size of the main car parks to support activities, small events and environmental enhancement.

8

Develop a new terraced area to enhance the views out, improve accessibility, shade and shelter for picnickers at 'Fish 'n' Chip hill'

9

Enhance the 'lookout' experience at the end of Maclean Street.

1

Build a new wide central path stretching from the top of Maclean Street to the Boat Club area.

3

Create an interactive, all season, water plaza to provide water play and interpretation of the natural and cultural landscape.

4

Link the playground and water plaza with a long pergola and amenities block including showers, toilets and barbecue facilities.

5

Provide an older persons playground.

6

Provide a proper half-court basketball area and enhanced skate facilities.

7

Remodel and increase the size of the main car parks.

1

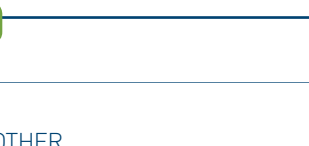

Continue path with boardwalk over stream

2

Support a collaboratively developed visitor centre/ Kāpiti Island Gateway building on the site of the existing Boat Club.

11

Extensively restore the estuary at Tikotu Stream

12

Relocate vehicle access to the beach

OTHER

Site interpretative signage (All Areas)

Power connection to grassed area for small events

Lighting on structures and main path

Note: All photos indicative only and actual details of structures and landscape finishes will be subject to design development of options.

Concept 3 "Central Path"
