Is there anything else you'd like to tell us about this LTP?

it is absolutely vital that the council puts in place a tree policy to protect trees on council land and private land. every day Kapiti loses valuable trees and that is unacceptable. for the council to have willfully neglected this very important task (not just from a climate change point of view but also in regards to the physical and psychological benefits to mankind, biodiversity, and the beautifying aspect) is downright unethical.
